Frontend Developer specializing in React and Next.js, focused on building responsive, high-performance web applications with clean UI/UX

Technical Skills

Category

Technologies

Frontend

React.js, Next.js, JavaScript (ES6+), HTML5, CSS3

Styling

Tailwind CSS, Responsive Design

Tools

Git, GitHub

State Management

Context API, React Hooks

Backend/Database

Better Auth, MongoDB

PROJECTS

Booklovers — Digital Library Platform

[\[Live Site\]](#) | [\[GitHub Repo\]](#)

- Engineered a full-stack library application featuring secure social authentication via **BetterAuth** and **Google**.
- Integrated **MongoDB** for real-time data fetching of book availability, categories, and personalized user profiles.
- Enhanced user experience with interactive modals, **SwiperJS** for smooth navigation, and **React-Toastify** for instant feedback.

KeenKeeper — Friendship Management Dashboard

[\[Live Site\]](#) | [\[GitHub Repo\]](#)

- Built a responsive friendship management dashboard using **Next.js** and **Recharts** for data visualization.
- Engineered a chronological interaction timeline and optimized **performance across all device types using Tailwind CSS**.
